Optimus Blast Wheel

Introducing the **Optimus** blast wheel from Rugged Equipment. The **Optimus** blast wheel uses industry leading design features to simplify maintenance and improve wear life and performance in your wheel blast operation.

By integrating a predrilled base plate and universal bolt pattern, the **Optimus** blast wheel is a direct bolt-on replacement for common OEM blast wheels. Other maintenance friendly features include simple blast pattern adjustments and faster tune-up kit changes.

Features:

- **Direct bolt-on replacement for common wheel designs**
- **Simple one-piece wheel and hub design**
- **Up to 32% more wear life compared to other designs**
- **No motor shaft modifications**
- **8-blade design for superior wheel efficiency, balance and flow**
- **No springs/pins required**
