

YOUR ONE-STOP SHOP

For Blast Wheel Aftermarket Replacement Parts

Maximum Performance, Value & Wear Life

RUGGED is a trusted supplier of aftermarket replacement parts for blast wheels and other blast machine components including tune-up kits, bare wheels and hubs, blades and vanes, complete blast wheel assembly, wear plates, and elevator belts and buckets.

We take pride in our mission to uphold the standard of excellence in American-made components while offering them at fair and reasonable prices. All RUGGED parts are designed, cast, machined, and assembled in the USA. Our engineering team designs each part to meet or exceed OEM component performance. We use only premium-grade materials and often produce the parts in the same domestic facilities as the original manufacturers.

When you choose RUGGED, you choose parts engineered to maximize longevity while optimizing your operating costs. We guarantee the exceptional durability you expect while providing maximum value. Get in touch today to experience the RUGGED difference.
